

KIDSLIGHTS **EXTENSION**

The lights of the KidsLights series from Ledlenser specifically address the needs and requirements of children. They offer a wide range of uses, from the self-made cave to the safe way to school, a multitude of colorful light functions, quick and easy operation, and practical energy-saving features. And the most important thing: Safety always comes first. For example, thanks to reduced luminous fluxes, minimized glare effects or safety headbands that open automatically.
