Citizen brand quality: For the keepers of the moment

Since 2004, we've been designing photo printers with one key consideration in mind: meeting the exact needs of our customers. That's why every one of our photo printers delivers:

Precision

Precision is a critical part of who we are and the printers that we design. Whether its watches, calculators, medical equipment or photo printers, our customers can rely on ultimate product precision and performance.

Longevity

Citizen photo printers are designed and precision engineered with high quality components to deliver high performance day after day and ensure a long, cost-effective operating life.

Efficiency

We believe the best solutions are economical. Our range of photo printers deliver high performance in an efficient manner, which keeps print quality high and running costs low.

Service

Our customer service team is renowned for its excellent support and is here to help you with all aspects of specifying, setting up and using your Citizen photo printer. Together, we can keep your photo printers running problem-free and economically.

User-friendliness

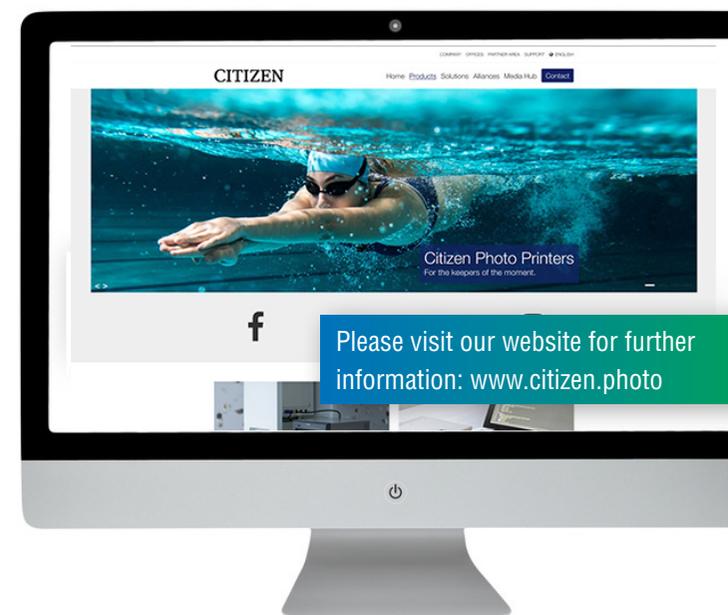

We understand that your priority is your customers, which is why our printers are designed to be easy to set-up and use – allowing you to completely focus on customers.
