A professional photo printer doesn't have to be expensive.

### Main features

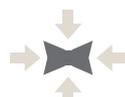

- // User-Friendly media replacement
- // Compact design
- // High capacity printing
- // Exceptional printing quality
- // Multiple sizes supported

### Features

Dust-free

 Printing  
Time

 Easy to  
use

 Compact Size  
footprint (0,105m<sup>2</sup>)

 High Resolution  
Prints

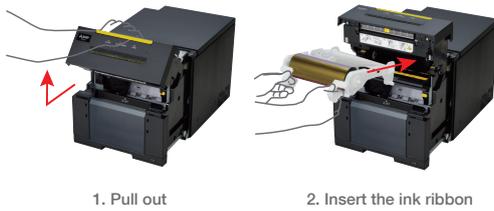

Multiple formats

## User-Friendly Media Replacement

The new media exchange method is user-friendly design which makes media reloads quick and easy. It allows immediate loading when taken out of the box. Media replacement is so simple as 3 easy steps accessible from the front of the printer.

### Ink Ribbon

1. Pull out

2. Insert the ink ribbon

- Simple one-hand pull out operation.
- Ink-Roll comes pre-assembled in built-in cartridge out of the box, Insert the ink-ribbon.
- Set the ink-ribbon firmly in place to complete installation

### Paper Roll

1. Insert the paper roll

2. Set the paper roll in place

- Paper roll comes pre-assembled with built-in flanges. Take out the dust bin and insert the paper roll.
- Simply remove the sealing tape from the paper roll and roll the paper into its proper position. When it is set correctly, green LED indicator will light up.
- Replace the dust bin into its proper position and close the front printer access door.

## Support Multiple Sizes

## High Capacity & Compact Design

Maximize space and maximize capacity with this compact design.

Compact yet high volume of 750 prints (4x6") per roll. Reduce need for media change frequency, saving time and operations cost.

## Technical specifications
