1 Average values in some cases, deviations by ± 15% may occur due to technical reasons. If no setting is expressly named, the values for luminous flux (lumens/lm) and lighting range (meters/m) refer to the brightest setting and the values for lighting duration (hours/h) to the lowest setting. The boost function can be used several times, but is only available for a short time.

2 Calculated capacity value in watt-hours (Wh) or milliampere hours (mAh). This applies to the delivery state of the battery/ies inside the respective item, or for lights with rechargeable battery/ies, to the rechargeable battery/ies inside the product when fully charged.

3 The average charging time of the batteries in the delivery state in minutes may vary depending on the power supply unit used.

The information pertaining to package contents, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change package contents, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and misprints excepted.
